## PROFESSIONAL SUMMARY

Experienced Mobile Developer with 10+ years of delivering robust Android and iOS apps. Specialising in CI/CD, Kotlin Multiplatform, and cross-platform architecture. Proven leadership in mobile engineering, with recent focus on machine learning using TensorFlow and Google Cloud.

## EXPERIENCE

### iOS Senior Engineering Manager

Nov 2022 - Oct 2024

*Gen Digital, Remote, Slovakia*

- Directed 4 iOS teams to deliver strategic cross-functional mobile solutions
- Drove a cross-departmental CI/CD initiative to overcome post-merger integration barriers
- Led an initiative to improve cross-departmental collaboration focused on the Design System
- Co-led a KMP workshop at a dev conference, expanding the team hiring pipeline

### Principal Software Engineer

Mar 2022 - Nov 2022

*Avast Software, Remote, Slovakia*

- Built and integrated Kotlin Multiplatform libraries in production iOS apps
- Drove the initiative to increase KMP adoption using working groups and production data

### Lead Mobile Developer

Jan 2018 - Mar 2022

*Avast Software, Prague, Czechia*

- Led Android and iOS teams to develop VPN mobile clients
- Applied Continuous Delivery practices to cut release cycles from bi-monthly to bi-weekly
- Maintained client library for Google Play's Billing System
- As a domain expert, I helped ML experts build a solution to identify a suspicious release

### Lead Android Developer

Nov 2016 - Jan 2018

*Avast Software, Prague, Czechia*

- Rebuilt legacy Alarm Clock app, boosting ad revenue via A/B-tested placements
- As an acting product manager, spearheaded redesign based on analytics data and feedback

### Senior Android Developer

Sep 2015 - Nov 2016

*Avast Software, Prague, Czechia*

- Worked on file cleanup, password management, serving ads and remote configuration

### Android Developer

Jun 2012 - Aug 2015

*Foundation, s.r.o., Bratislava, Slovakia*

- Created Android client for cloud backup service (Soonr) and integrated C++ sync agent via JNI

## TOP SKILLS

Android | Kotlin | KMP | Jetpack Compose | CI/CD | Leadership | Performance & Monetization | Gradle

## EDUCATION

### Master's in Economic Informatics

Sep 2007 - Jun 2012

*University of Economics in Bratislava*

- Master's thesis (Luleå University of Technology, Sweden): Real-time IDE for embedded systems (Eclipse, Java)
